

Quality Policy

Every employee must be committed to offering innovative and sustainable solutions in the delivery of electric energy creating value to the interested parties by means of:

- Products and services that assure the full satisfaction of our customers and the commitment to the compliance of applicable requirements
- Management of our Quality System and the commitment to continuous improvement
- Safety and taking care of the environment.

Quality Statement:

Quality is everyone's responsibility!

Own It

Receive No Defect!

Create No Defect!

Ship No Defect!

All employees are empowered to stop production any time they question overall quality of the product.
